Professional Summary

A Pre-Final year computer science undergraduate at **VIT Bhopal University** specializing in artificial intelligence and Machine Learning. Focused on developing innovative solutions through full-stack development, machine learning algorithms, and data engineering. Strong foundation in building scalable web applications and implementing data-driven decision-making systems.

Education

VIT Bhopal University B.Tech in Computer Science and Engineering (AI/ML Specialization) - 8.18 CGPA	2023–2027
S.S.V.P.S Jr.College XII - 77 percentage	2021–2023
Loknete Vyankatrao Hiray Academy (C.B.S.E) X - 86 percentage	2020–2021

Technical Skills

Programming:	Python, C++, Java
Web Development:	HTML, CSS, React, Node.js, MongoDB, Firebase
AI/ML:	TensorFlow, Scikit-Learn, NLP, Computer Vision
Data Engineering:	SQL, Pandas, Matplotlib, Power BI, Informatica
Tools:	AWS, Azure, Git, GitHub, Docker, Linux
English Language Proficiency:	Strong Verbal, Professional Working Proficiency
IT Support:	Hardware, Software Troubleshooting, User Support
MS Excel:	Formulas, Data Management, Data Entry, Reporting
Finance Basics:	Financial Analysis, Records, and Documentation

Experience

AICTE Virtual Internship

- Completed an AICTE-recognized virtual internship (3-4 weeks) focused on industry-oriented technical skills.
- Worked on 20+ hands-on assignments involving algorithm implementation, coding, and tool-based workflows.
- Applied foundational concepts of software development and data handling in 5+ practical scenarios.

GSSoC "25" - As a contributor:

- Selected and mentored to contribute to open-source projects at GSSoC 2025.
- Worked with developers in the international technology scene through Git and GitHub.
- Improved code writing and code reviewing.

Adobe Hackathon 2025:

- Advanced to the second round of Adobe Hackathon 2025 after successfully clearing the initial coding + MCQ screening rounds.
- Demonstrated time-bound coding challenges under time constraints using data structures and algorithms.

Projects

Full-Stack Text-to-Speech Converter

- Developed a web application using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented JWT-based authentication, RESTful APIs(15+ endpoints), and responsive UI components
- Ensured seamless frontend-backend integration, reducing request latency and ensuring smooth UI-UX experience

Full-Stack Dentist Web Application

- Designed a web-based application on a full stack to manage patient appointments and medical records.
- Added secure authentication and 2+ role-based access to the dentists and clinic staff.
- Created a booking system based on CRUD operations with real-time feedback.

Achievements and Certifications

Google It Support

- Completed a comprehensive, industry-recognized program focused on IT support and system administration.
- Gained hands-on knowledge of computer networking, operating systems (Linux and Windows), system troubleshooting.

Oracle Cloud Infrastructure 2025 Certified Data Science Professional

- Earned certification demonstrating expertise in data analysis, machine learning fundamentals, and cloud-based data solutions on Oracle Cloud Infrastructure (OCI).
- Worked with data preprocessing, model building, and evaluation techniques in a cloud environment.
- Gained exposure to deploying, managing, and scaling data science workloads using OCI services.
